Sir:

I contacted a confidential informant who stated:

That this doctor has been interviewed by the FBI and a private investigator hired by Mr. Belli.

That the doctor has known Jack Leon Ruby since 1956 socially and professionally. Ruby has visited his home on several occasions, and the doctor has visited Ruby at the Vegas and the Carousel Clubs. They have attended a synagogue together. The doctor stated that he is a friend of Jack Ruby's. He states that Ruby does not drink and is religious on Holidays and special occasions.

The doctor describes Ruby as flamboyant and excitable with no stable emotions. He stated that Ruby has a great deal of nervous energy and a good attitude toward everything. That Ruby had not discussed politics with him, and the doctor knows no one associated with Ruby. The doctor is on the staff of a children's hospital, and Ruby furnishes an orchestra to entertain the children each year and charges only enough to cover the expenses.

The doctor does not know Lee Harvey Oswald, and Ruby has never mentioned his name. He stated that he has never seen Ruby with a foreigner and has never seen him flash large amounts of money.

Medical Record

Date	Reason
8-31-56	Infection of finger
4-19-57	Infection
8-16-58	Abrasion over Right Eye
8-3-59	Gonorrhea
8-7-59	Gonorrhea
5-16-52	Cyst on Back
9-1963	Gonorrhea - No Record

The doctor stated that Ruby called him about 4 or 5 P.M. November 22, 1963 and asked what time services would be held for President Kennedy at the synagogue. The doctor said that Ruby did not have his usual "broozy" attitude and normal tone of voice. He seemed upset.

The doctor is a professor of psychiatry at some medical school.

Respectfully submitted,
